Your Investment: \$ _____ *

**Available for purchase up to TWO years from the date of installation.*

Frequently Asked Questions

What if I need a repair or my system is not working?

Call the issuing dealer on your listed agreement. The contact information is listed on the first page of the agreement. They will send a service technician to check on your system.

Do I have to maintain my equipment?

Yes, maintenance is required.

Like an oil change for your car, your HVAC system needs to be maintained properly to ensure its performance. An A/C and a Heat check performed by a licensed contractor are required annually.

What if the issuing dealer is no longer in business?

Contact JB & Associates and they will transfer your warranty to another contractor.

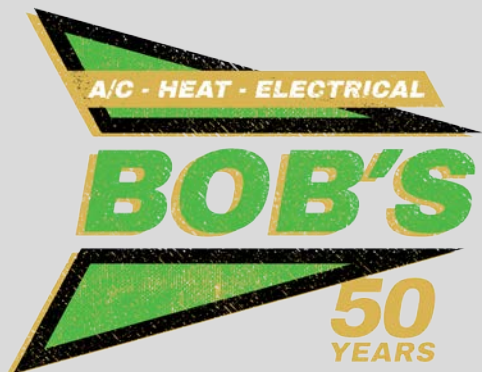

What is Premium Protection Plan?

Premium Protection Plan is a convenient and affordable extended service agreement that provides you with "Guaranteed Peace of Mind."

Our plan provides comprehensive protection against any unexpected mechanical failures your HVAC System might have during the life of the equipment.

What is Covered?

Most manufacturer's limited warranties do not cover labor, however, with Premium Protection Plan 100% of the labor charges associated with your repairs are covered. Based on the plan you select, our agreements may even extend the manufacturer's limited parts warranty, ensuring your equipment is fully covered for both parts and labor. All warranty service is only covered during the Issuing Dealer's Regularly Scheduled Business Hours. After Hours and Emergency Services are NOT covered.
